

# Alpine Flow Control UK Limited

## Type III Inline Power Generator

**IP68 waterproof**

Permanent magnet brushless generator

The generator does not need heat dissipation

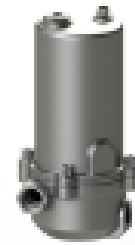

Non-moving sealing structure

Maintenance free structure

Continuous working for 30000 hours

Micro magnetoresistance and 1 bar differential pressure can generate electricity for recharge.

**12V 350mA-500mA power supply can be achieved under 1 bar differential pressure.**

Power generator pilot
